

NYLEC, WIDE BODY 75

NYLEC, Wide Body 75

Nylec is a Conam 75 Wide Body, built in 2004 by Cantieri Rodriguez soon after being purchased by the famous Cantieri Baglietto; because of this Nylec is recognizable for its unique style and power, mixing together the knowhow of these 2 important shipyards.

The concept of her wide-body, and overall full width interiors which don't present a walk around is a known feature that was always applied by Conam.

The Baglietto interiors have the typical layout of the living, dining, galley and crew mess area.

The absence of a walkaround makes the main deck living area very spacious, whilst the general size seems closer to a 90ft yacht.; the top deck gives access to the forward sundeck area providing the guests with the best comforts allowing them to use both sundeck areas as one. The astern cockpit offers a dining table for up to 8 guests and allows the guests to access the top deck via the stairs.

The main deck living area has a salon with a large sofa and bar, an ice maker, fridge and a dining table which can host up to 10 guests.

The lower deck offers 4 staterooms: an Owner double bedded suite, a VIP double bedded cabin and 2 twins amidship with 2 separate single beds each. Every cabin has its own ensuite bathroom with separate showers and bidet.

The crew quarter is accessible by the galley, completely separate and independent.

Nylec has ZERO SPEED STABILISERS installed in 2020.

8 Guests Crew of 3

NYLEC, Wide Body 75
