

Male to Male 7 Days

SEVEN DAYS LUXURY YACHT CHARTER

CRUISING FROM MALE TO MALE

Day 1: Male

When getting back to the yacht a 2-hour trip will take you to Bandos Island. This is just a taste of everything the Maldives has to offer. White sandy beaches in excellent shape, abundance of palm trees, and, of course, sparkling clear waters. Put on your diving gear and go for your first dive of the week. Bandos has a lovely coral reef to the sea, and if you're lucky, you might see a pod of dolphins nearby.

Day 2: Rasdhoo

The Rasdhoo Atoll is one of the Maldives' major diving destinations, so plan on spending at least half a day here to really enjoy the magic of these waters. Divers in these waters will observe an abundance of colorful fish as well as some larger undersea animals, including sharks on occasion. Lunch onboard your luxury charter boat as your crew cruises to your next port of stop for the day. Ulkulhas Thila is a dive site for highly experienced divers and is one of those dive locations that you will never forget.

After diving into the chilly waters, you'll descend to a rock pinnacle that draws manta rays all year. Hold on to the rock as the gigantic mantas approach to examine and clean their wings.

Day 3: Maaya Thila

After anchoring at Maaya Thila, you'll spend the morning exploring the underwater world and the pinnacles. If you can, go more than one dive here to see the rich sealife and exciting larger critters like nurse sharks, white tip sharks, and rays. Unlike the dive at Ulkulhas Thila, this dive site is appropriate for divers of all levels of competence.

You have the afternoon to yourself to enjoy and unwind. Diving can be tiring, so recharge your batteries with a calm afternoon on one of the stunning white sandy beaches. Enjoy a refreshing drink made from a ripe coconut, top up your tan, and enjoy some well-deserved alone time.

Day 4: Dangheti Island

Your first stop should unquestionably be the Kuda Rah Thila. This dive site has everything you would expect from one of the greatest as one of the dive sites in the area. The diving location welcomes you with a spectacular display of soft corals, while a plethora of marine life darts about the formations. Although the fish are beautiful to see, you won't be disappointed if you're hoping for some larger animals. If you're fortunate, you might be able to view some reef sharks and sea turtles.

Day 5: Felidhu

Particularly Miyara Kandu is a terrific area to spend some time underwater because you will have some up-close experiences with big pelagic fish there. Swim over to the drop-off to observe whale and reef sharks, as well as a few manta rays, after studying the reef and its resident reef fish. If you're extremely fortunate, you could even get to see some hammerhead sharks. You will take a sail over to a sandbar for a distinctive dinner location after a day of coral exploration. Enjoy a seafood barbecue on your own private patch of sand, go kayaking near the bar, and toast a wonderful holiday with a glass of champagne under the stars.

Day 6: Fotteyo Kandu—Kandooma Thila

Start the day in Fotteyo Kandu, where you will find a dive site full with caverns. There are a lot of swim-throughs and interesting crevices to discover on this dive. As you swim over black and yellow corals and other attractive rock formations, join the marine creatures. Numerous fish can be seen swimming past you in big schools. As your crew drives you to your second stop of the day, you can dry off on the deck of your luxury charter yacht. You'll want to put your diving gear back on after a quick lunch when you get to Kandooma Thila. The diving location at Kandooma Thila, which is in the South Male Atoll, has a bustling 300-meter peninsula. Numerous vividly colored reef fish reside in the massive coral displays, and occasional larger visitors like reef sharks and eagle rays also stop by.

Day 7: Male

As the final full day in the Maldives arrives, enjoy a lovely fresh breakfast onboard your luxury charter yacht. Make the most of a last day of exploring, snorkelling and diving into the crisp crystal clear waters. Take a tour around town to see the sights of the traditional way of life on these islands. Observe the villagers bringing in their catch of the day and how they prepare their specialities. Pick up some final gifts for friends and family back home. Cocktails and dinner for you final night onboard in this wonderful location.

Disembarkation the next day in Male.

** The itinerary is flexible according to guests requirements and weather conditions*
